

Declaration according to the regulation (EU) 2019/1021 (POP)

Regulation (EU) 2019/1021 on persistent organic pollutants (POPs) aims to protect human health and the environment from these substances by stopping the production, placing on the market and use of these substances as soon as possible or by restricting them to a minimum.

The regulation also lays down conditions for waste consisting of these substances, containing these substances, or contaminated by these substances.

We hereby declare that the products manufactured, processed and distributed by Allied Vision Finning GmbH do not contain any persistent organic pollutants in accordance with the POP Regulation (EU) 2019/1021.

The statements made here are essentially based on the information provided by all manufacturers of the materials we use that are related to our product portfolio, as well as their raw material suppliers.

Allied Vision Finning GmbH has not carried out any laboratory analyses to verify the relevant statements.

Please note that this declaration applies exclusively to the condition of the articles when they leave our production site or warehouse.

Allied Vision Finning GmbH will not accept any liability for other materials or processes used in connection with the products mentioned here.

Finning, 2026-03-17
